

Agreement on activity exchange between
The Geological Society of Korea
and
The Geochemical Society of Japan

The Geological Society of Korea (GSK) and Geochemical Society of Japan (GSJ)(hereafter referred to the two societies), in the conviction that the activity between the two societies will promote scientific research and communication for the benefit of geochemistry, hereby conclude the following agreements.

Article 1. The two societies agree to have mutual discussion on cooperative and collaborative activities for promoting scientific research. This agreement defines the principles and methods of cooperation that the GSK and GSJ wish to develop between them under equal partnership.

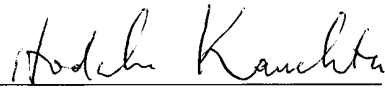

Article 2. In order to support the activity stated in Article 1, the two societies agree to promote and support their member's contribution to and attendance at annual meetings of two societies and V. M. Goldschmidt Conferences™, a broad-scope conference covering all aspects of geochemistry, cosmochemistry, and geology.

Article 3. The two societies agree to carry out the above activities in accordance with the laws and regulations of the respective countries after full consultation and approval of both Societies. It is understood that implementation of any type of cooperation stated in Article 2 may be restricted depending upon the availability of resources and financial support. The execution of this agreement will not cause any financial obligations to either Society.

Article 4. This Agreement is valid for five years effective from the date of the final signature affixed below by the two societies. The term of the Agreement is extended unless either party expresses the intention of terminating the Agreement. Either party may terminate the Agreement during the five years term by giving a written notice to the other party six months in advance

Article 5. This Agreement is executed only in English.

Witness: 
DaeKyo Cheong, President
for the Geological Society of Korea

Witness: 
Hodaka Kawahata, President
for the Geochemical Society of Japan
